

product name: Ceramic Antenna

product model: GL868S25

Feature:

High gain , Compact Pin type

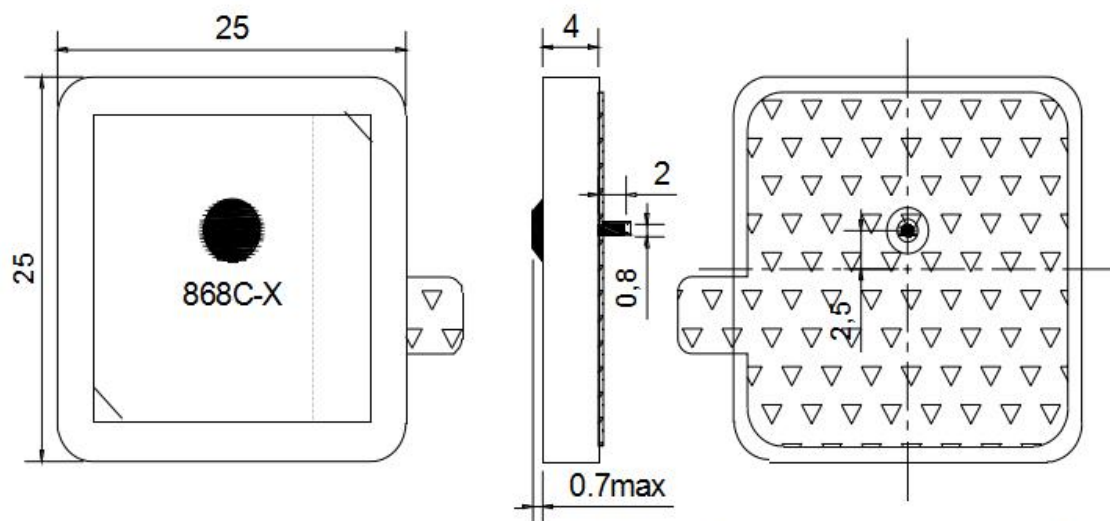

Customization available

1. Performance Characteristics

Center Frequency	868±3.0 MHz
Return Loss @ F0	≥15dB
Polarization	RHCP
Ground plane	70x70 mm
Impedance	50 Ω
Operation Temperature Range	-40 ~ +85℃

2. Mechanical Drawing

The last "X" is the serial number of month

Tolerance Unless Otherwise Specified: ±0.30
Unit: mm

3. Characteristic
